Opportunities for **recall** built in through sharing Learning Journals.
Also photo books, story and

Investigation areas to include rocks and crystals for exploration/observation

Water and sand play inside and outside –

information books to remind		exploring flow etc.		
children about real places etc.		Looking after our environment - litter picking – link to issue  Small world opportunities – children to create their own environments, including farms, buildings, cities etc.		
Educational Programme - Understanding the World (2021/22)	Guiding children to make sense of their physical world and their community from visiting parks, libraries and museums to meeting important members of society such as police officers, nurses and firefighters. In addition, listening to a broad selection of stories, non-fiction, rhymes and poems will foster their understanding of our culturally, socially, technologically and ecologically diverse world. As well as building important knowledge, this extends their familiarity with words that support understanding across domains.			
New ELGs (2021/22) – Understanding the World	'People, Culture and Communities' Describe their immediate environment using knowledge from observation, discussion, stories, non-fiction texts and maps (F)  Know some similarities and differences between different religious and cultural communities in this country, drawing on their experiences and what has been read in class; (F)  Explain some similarities and differences between life in this country and life in other countries, drawing on knowledge from stories, non-fiction texts and – when appropriate – maps. (F)  'The natural world' Understand the effect of the changing seasons and the natural world around them
